Dear Members of the Veterans and Legal Affairs Committee

I would like to ask that you DO NOT pass bill 1847 - An Act to Institute Testing and Tracking of Medical Use Cannabis and Cannabis Products Similar to Adult Use Cannabis and Cannabis Products, Dedicate a Portion of the Adult Use Cannabis Sales and Excise Tax to Medical Use Cannabis Programs and Create a Study Group. This bill is based off a track and trace system that has been nothing but a short coming of a testing and tracking program. I will leave out the turmoil the existing tracking program has caused the Adult Use Market.

Thank you
