

DOREEN ANDERSON

Milford

LD 1897

My name is Doreen Anderson, I am a retired, senior citizen and medical patient. I want to see outdoor cultivation of cannabis supported through the passage of LD1897. There should be more access to sun grown products and I believe there should be steps taken to reduce energy use in the cannabis industry. This would help to keep prices affordable for those on very limit income and who prefer local growers rather than having large corporations taking over the industry.
