I am writing to express my strong support for the bill that promotes a fair market for sungrown cannabis. Sungrown producers offer high-quality, sustainable products and deserve the same opportunities as indoor cultivation operations.

This bill is a crucial step in leveling the playing field, while simultaneously supporting environmentally responsible farming practices. It represents a forward-thinking approach that will benefit both the industry and the future of cannabis.

Thank you for considering this important measure. I encourage your support to ensure a more equitable and sustainable cannabis market.
