

Charles Temple
LINCOLNVILLE
LD 380

I strongly oppose LD 380, which would repeal Maine's Shield Law and expose our healthcare providers to out-of-state criminal prosecutions for providing legally permitted care in Maine. This repeal would create a chilling effect on healthcare delivery, jeopardizing our already-strained medical infrastructure and potentially driving away essential healthcare professionals. I urge you to protect Maine's healthcare independence by rejecting LD 380 and preserving the critical legal protections that allow doctors and patients to safely give and receive necessary care.
