LD 1635

I URGE YOU to vote OUGHT NOT TO PASS on LD 1635, An Act to Streamline Municipal Referenda Recount Initiation. This bill is very ambiguous. It implies that it is to streamline the process for a municipal referendum to initiate a recount. I think that the state government needs to get out of the way of how the municipality does their own recounts. This should be decided by the people in the municipality, NOT THE STATE GOVERNMENT! We taxpayers need to handle our own towns as that is our responsibility, NOT THE STATE'S! The definition of this recount in this bill is ambiguous at best and cumbersome at least. I believe the people who are in each municipality are smart enough to know what is best for them. Leave them to their own. Please vote OUGHT NOT TO PASS on LD 1635. Thank you.
