LD 1847

Dear Members of the Legislature,

I urge you to vote NO on LD 1847, "An Act to Institute Testing and Tracking of Medical Use Cannabis and Cannabis Products Similar to Adult Use Cannabis and Cannabis Products."

This bill would force Maine's patient-focused medical cannabis program into a costly, corporate-style regulatory model—one designed for the adult-use industry, not small caregivers or chronically ill patients. Mandatory testing, THC caps, and seed-to-sale tracking are financially devastating for caregivers and will push many out of operation.

LD 1847 favors large-scale producers by sidelining the caregivers who have safely and compassionately served our communities for years. It threatens patient access, drives up costs, and erodes the integrity of Maine's medical program in favor of corporate consolidation.

Sincerely,

Michael DiPrima
