

Scott Blevins
SKMS LLC Portland ME
LD 1840

With equal respect for both the tremendous endeavor of regulating a new industry and the many mistakes and debacle it has become, our organization would strongly discourage politically motivated or misguided regulation as proposed under LD 104 & 1847, and while not perfected, would strongly encourage that many of the clarifications made by bills supported by the Maine Craft Cannabis Association are long overdue in adoption. With respect to the immense tax revenue generated, and significant investment of Maine citizens and industry, it is our organization's hope that the state would see fit to utilize the tax payers' moneys to best and most professionally manage the industry for its continued health and all the benefits that brings the state and its citizens. It would seem anything short of this would constitute dereliction of duties to the citizens of Maine, and clearly this has never been an agenda of state regulation.

Most Sincerely,
Scott Blevins
