LD 1870

Dear Committee Members,

I am asking you to support LD 1870, an act to establish a superfund recovery program. Living on the coast of beautiful Maine I am deeply aware of the climate driven storms which have already cost billions of dollars in repair. We know that our communities and state don't have the capacity to keep paying out for future climate crisis damages caused by the fossil fuel companies. This bill, modeled on the successful Superfund law has passed court challenges throughout the past 50 years. we should join other New England states in this successful effort to make the polluters pay for the terrible damage they are causing and for adaptive changes necessary for our survival.
