

Jason Joyce
Swan's Island
LD 1679

Dear Committee Members,

As a Town Selectman and fisherman I ask your support for ld1679. As the years have passed and we have lost access to fisheries, our unbridged islands find themselves unable to commercially access some fisheries which makes it harder and harder to maintain a year round population.

Please consider an "ought to pass" to allow the current scallop licenses to remain on the island.

Thank you!
