

Greg Kimber
Temple
LD 1870

I am writing to testify in support of LD 1879, establishing a climate superfund cost recovery program to impose penalties on climate polluters. I'll make it brief because I'm not providing an expert perspective on this. I'm just one more global (and Maine) citizen who looks with fear and dread at the impacts of climate change that we're already seeing and looks ahead with even more fear and dread at those impacts that we expect to see given how little progress is being made to reduce emissions. It's going to cost a lot to deal with the destruction brought on by the climate crisis. It's only right that fossil fuel corporations that have grown so grotesquely wealthy by profiting off of this destruction at the expense of future generations should pay to deal with the damage. Thank you for considering my testimony in support of this legislation.
