Re: LD 104 An Act to Protect the Health of Medical Cannabis Patients and
Streamline the Mandatory Testing of Cannabis

Good morning, Senator Hickman, Representative Supica and Honorable Members of the Joint Standing Veterans and Legal Affairs Committee. I am writing to you today in support of LD 104. For too long now the medical cannabis industry in Maine has been referred to by many as the wild wild west. When someone who is ill seeks out the engagement of their endocannabinoid receptors they trust that the card issued to them by a medical professional ensures their safety. While there are people in the industry who provide this safety, there are also unfortunately many who will say that it is perfectly legal to sell contaminated products to our neighbors who may already be battling some serious health crisis. In an effort to protect these vulnerable humans I urge you to vote ought to pass on LD 104.

Thank you for your time and efforts.

With care,

Angel McLellan, Director of Clinical Services
