

Nicholas Fulton  
Carmel  
LD 1847

Hello, my name is Nicholas Fulton, I'm a medical caregiver for the state of Maine, based in Carmel. I started my business with dreams of helping people like many other caregivers in our state, however,

We are entering a recession, and more regulation and taxation on small businesses already struggling to survive is not the answer. Furthermore, this bill acts as a tactic meant to drive out small family run businesses and quality medicine from the Maine medical community.

I beg you, for the sake of, and on behalf of our states caregivers and patients, do not pass this bill.
