

Tyler Monahan
Raymond
LD 104

My name is Tyler Monahan. I am the owner of eclipse cannabis in Raymond Maine. We are a small vertically integrated medically dispensary and grow. Metric is something that does not stop any illegal marijuana from being grown, but instead will make it impossible for our grow and dispensary to operate in a small craft way. We offer 30-50 strains from our grow rooms for our patients. To use track and trace and get testing with that many strains every harvest would be impossible. We would have to double the price and we can barely scratching a profit as is. We hope this bill gets taken down. Our medical program is a great program that brings in hundreds of Millions of dollars currently. We hope that doesn't change. Please veto this bill!
