I'm writing in support of the bill that promotes a fair market for sungrown cannabis. Sungrown producers offer high-quality, sustainable products, and they deserve the same opportunities as indoor operations.

Even worth noting some of the products process better and allow the farmer to save money for other projects cannabis related .

This bill helps level the playing field while supporting environmentally responsible farming. It's a smart, forward-thinking step for the future of cannabis.

Thank you for considering it.
