

Richard Coshov
Bridgton
LD 233

I am a full-time, voting resident of Maine. I STRONGLY support LDs 233, 868, 1002, 1134, and 1704. Keep men and boys out of women and girls' sports and bathrooms!

This is common sense legislation. It's outrageous to think otherwise! Biological males have no business being in biological female's locker rooms/bathrooms, or competing against them in sports programs. It's dangerous, and totally disrespects biological females. It's a travesty that women's sporting opportunities have been ruined by the State of Maine.

Many Maine politicians and unelected bureaucrats have totally disregarded the fact that a large majority of Americans (~80%) DO NOT want biological males competing against biological females, or have them in the girl's locker rooms/bathrooms!

Men and boys should NOT be allowed to compete with women and girls. Men and boys should NOT be allowed in women and girl's locker rooms or bathrooms.

Maine State law is superseded by Federal law. Maine must fully comply with Title IX Federal law.

I fully support LDs 233, 868, 1002, 1134, and 1704 and they "ought to pass."
