

Travis Luongo
Bridgton/lost flower farm
LD 1847

I am against this bill for A number of already proven reasons. These changes would raise costs, reduce access, and put small, local producers at risk—hurting both patients and the local economy. We've already seen what happens when local manufacturing disappears: product quality drops, prices go up, and community trust erodes. Why are we doing the same to cannabis We already follow strict cleanliness, documentation, and quality standards. Every added layer—SKU testing, digital tracking systems, compliance hours—makes small farms like ours spend more to stay afloat. These costs hurt patients and threaten the survival of craft producers.
