

Please support LD 1744

Good morning. I'm Jeffrey Doyon. I'm a resident of Winslow and have worked for DHHS for over 30 years. My position is part of the executive bargaining unit. LD 1744 would modify provisions of the State Civil Service System governing employee recruitment and retention.

Better recruitment and retention is needed for our work sites that are often with vacancies while we look for candidates to fill them. Modernizing recruitment, the retention stipend process in state government would help Maine make progress to attract employees and address chronic understaffing.

We want to offer the best service we can provide but need help. Thank you for your addressing this and please support LD 1744 to help my Department and Executive Branch employees with Employee Recruitment and Retention
