As a mother to a young girl I feel compelled to submit my testimony today.  
It is unbelievable that this even needs to be said but girls need their own bathrooms,  
they need their own sports, they need their own safe space. Please support 1337 and  
1432. It is cruel to tell kids that they were born in the wrong bodies. Accept children,  
treat them with love and compassion and please protect girl's. Support 1337 and 1432.  
thank you
