

Lynsey Tamposi  
south paris  
LD 1847

My name is Lynsey Tamposi, I am a resident of South Paris, ME, I am a medical patient and I want to see through rejection of ld1897. I am against mandatory testing and would like to see steps taken to lower the barriers to entry for these programs, not increased due to unnecessary costly testing, it is also my belief that the state should allow for participants in these programs to practice freedom of choice and informed consent for patients and cultivators alike. Thank you for your time, please vote ought not to pass on LD1897.
