LD 1704

I am writing to support LD1704. No municipal or Administrative School Unit should be allowed to adopt a policy that allows a biological male to use a restroom that has been designated for the use of biological females (and vice versa). Single use bathrooms with a lock on the inside can be designated for the use of one person at a time if there seems to be an issue with a student identifying as an opposite gender. Thank you for listening.
