I support LD 1337 and LD 1432. PROTECT AND RESPECT BIOLOGICAL WOMEN!!

Biological males have no business being in biological female's locker rooms, bathrooms, shelters, or competing against them in sports programs. It's dangerous, and disrespects biological females. It's at the very least discriminatory and insulting to women.

Many Maine politicians and unelected bureaucrats have totally disregarded the fact that a large majority of Americans (~80%) DO NOT want biological males competing against biological females.

In this country we are blessed with privilege of certain freedoms, however, if our governing authorities don't use discretion in applying these matters, our community becomes one of entitlement vs. privilege. The thought process disregards the inclusive female gender. A person choosing to smoke and inhale toxic substance does not entitle them to invade the space of those who choose to not smoke. A biological male who chooses to identify as a female, is not entitled to violate the space of the biological inherent female. We have witnessed the danger and unfair advantage of the born biological male (who transitioned) competing in women's sports.

Maine must fully comply with Title IX Federal law. Maine State law cannot trump federal law and therefore it no longer applies.

I support LD 1337 and LD 1432 and they "ought to pass."
