

## LD1704

Hello again committee,

How is your morning going, what a day eh? It's Marissa again. Concerned Citizens of Westbrook and you probably already know how I stand on this one.

LD1704 is another half-baked bill caught up in the fear mongering of the time and not thought through in any actual practicality.

This is another one that doesn't take into consideration the existence of intersex individuals or those that already exist outside the binary of chromosomal sex.

This bill violates the privacy of individuals and promotes a culture of bullying and harassment. Instead of making restrooms safer it will likely make them feel more policed, monitored, violating, and potentially violent.

And quite frankly I just feel like we can be spending our time passing better bills and policies. This has been a long morning. Y'all do a lot of work. This has been a lot of work. It's rough out there. But I feel like there are bigger fish to fry than worrying about where a 10 year old takes a piss.

Think about it when I put it that way...

See you later this afternoon!

Peace,  
Riss
