To members of this hearing. I believe it is wrong and very dangerous to allow biological boys in women bathrooms, lockerrooms, and women sports. God made us different for a reason, and this is very inappropriate. As a citizen of Maine, I am very much against this happening and would ask that no bill passes that let's this happen. I'm 74 years old and very much aware of all the awful and dangerous consequences that could happen. Thank you for hearing me. God Bless
