I have personally sat at the awards ceremony at the Maine State Meet for Women's gymnastics in 2024 for an NGA sanctioned event and watched a boy take the first place podium. This was a middle-school meet. This boy had a penis that was visible beneath the spandex. This boy had a boy's haircut and a boy's name and everything about him was a boy except that he decided to be a girl in his mind and he stole first place from an actual girl.

You Maine lawmakers love abortions, so let me put it this way: if they can't have an abortion, They don't get to play in women's sports.
