Biddeford Maine
LD 885

dear committee my name is Ronin Quinn I am a student of Biddeford high school I would like to voice my opinion on the bill that's being represented LD 885 an act to allow certain people with a permit to carry concealed handguns to posses or discharge a firearm on school property . "Teachers should not be required or expected to carry firearms in schools, as their primary role is to educate and support students—not to act as security personnel. While some argue that arming teachers could enhance safety, it also introduces significant risks and could create an environment of fear rather than learning. School safety should be addressed through trained security professionals, stronger mental health support, and preventative measures."
