

Emily H  
Boothbay Harbor  
LD 868

I am the parent of three cisgender children in Maine public schools and a teacher of all students who enter my classroom. Transgender students do not cause trouble in bathrooms - rather, it is the open bathrooms with urinals and curtained stalls that lead to harassment and ridicule of other children. The actual problem is the anachronistic bathrooms of our aging schools and local infrastructure, not the students who are transgender. Reject LD868. Instead, support school infrastructure funding.
