Good morning Senator Carney and members of the Judiciary Committee .

I am for protecting girls/women and I would say I do not think it is safe for biological males to play in girls/women's sports or to be able to use the same locker rooms and bathrooms . It is also unfair for females to have to compete against biological males in sports . It shouldn't be allowed to happen in our schools. If we let boys/ men in ours girls sports that takes away from everything our girls/women have been working so hard for . Depending on the sport girls could very well get hurt because biological males are so much more stronger than females. It's a given. Is this what we truly want for our girls in Maine?
