

Jo-Lene Harvey
Knox
LD 868

Good morning Senator Carney and esteemed members of the Judiciary. As a mother, grandmother and great grandmother, I would like to let you know that I am for the proposed LD868. I want to ensure that the upcoming generations are protected from any potential harm or abuse. Allowing biological males in girls places of vulnerability is opening up a Pandora's box for sure. Please pass this proposal to ensure our girls have a safe future. Thank you
