Dear Maine Judiciary Committee,

I firmly stand in strong opposition to any ruling that allows biological males to participate in girls/women's sports, or that allows biological males to enter girls/women's facilities. Why this is even a topic of discussion is a clear sign of a degraded and sick society. There are not 73 genders just because the mentally ill say there are. Many of you on the committee are females. Ask yourselves this question: Would I be comfortable as a young girl watching a fully grown male getting undressed in front of me? If your answer is yes, you shouldn't be allowed to work in government or be within 500' of children. Please hear the voices of the people on Maine and remember there are only 2 genders. PROTECT OUR DAUGHTERS, SISTERS, FUTURE MOTHERS AND GRANDDAUGHTERS!!!
