

Mal Stephens
Wells
LD 868

Please vote for LD 868. It will ensure the safety of girls and women from predatory biological males who are hiding under the guise of a trans female. This delusion that biological males are women and thus equal in strength and behavior must be dismantled. I do not believe that many women can understand how men's minds work. We are predatory by nature, and unless it is directed in a healthy manner such as sports, martial arts, or hunting, it will become pathological. This is what the trans fad is, a mental disorder. Please use your common sense and vote for this act.
