Members of the Judiciary Committee,

The purpose of this bill is to deny a group of humans the right to exist. If you vote to advance this bill, you are voting to erase people. Let's be clear: No state or authority has the legitimacy to tell a person who they are and any attempts to do so must be rightly called out as fascism. Put this proposed bill back in the dumpster fire it oozed out from.

With strong expectations you will act with decency,  
E. C. Dubois, Bangor
