I am shocked at what's happening in our state. The biological facts are that boys are different from girls, and are stronger in muscle strength. To allow boys to compete against girls in girls' only sports is totally unfair to the girls. Boys should be required to compete against boys - those who were boys at birth. (Sex can't be changed, it's decided at conception).

To allow boys in girls' locker rooms and bathrooms is dangerous. Each sex needs their own private place to use the restroom, shower and change clothes.

Please do what is right. Give each person their protected space, determined by the sex determined by God at conception and known before or at birth.
