

Kathleen March  
Windham  
LD 233

I am writing to strongly support of LD233.  
Biological males should not, under any circumstances be allowed to participate in athletic programs and activities designated for females (too be specific, biologically born females as history has always understood it to mean). It is unfair, unsafe, and abusive to women for this to be happening. I do not agree with my tax dollars being use to pay to allow this inappropriate disregard of inequity and disrespect to biological females. LD233 ought to pass! Thanks for reading and allowing me to have a voice to be heard.
