Brunswick
LD 868

To Members of the Judiciary Committee,

I first want to say that I write this in support of LD 868 and it "Ought to Pass. I strongly urge you to not only read all the written testimony but to listen very carefully to the ones done in person right in front of you. I am opposed to boys in girls sports. I am opposed to boys in girls bathrooms, changing rooms, at housing at Elementary, Secondary and post secondary schools. Girls in MAINE deserve safe spaces in schools and to be allowed to work hard as athletes and compete with other girls, not boys who want to be girls. They are boys and built like boys. It is not fair that girls are losing their races to biological males. When they speak up with their voices they are shut down and called names like trans phobic. The girls of Maine deserve a fair, safe and level playing field.

People of today in front of you or online will speak up on their behalf Maine girls will not be silenced or pushed aside anymore. WE THE PEOPLE OF MAINE SAY NO MORE. Do the right thing today. Vote "Ought To Pass in favor of LD 868. Thank you

Respectfully submitted,
Susan Neale
