

Ysanne Bethel  
Portland  
LD 1002

LD 1002 infringes on the inherent humanity of young people and the fact that they know themselves the very best. When someone tells you who they are, believe them. We should be encouraging young people to express themselves and share who they are. It's a great honor to be trusted with that and students should not be punished for doing so at school. I urge you to vote "Ought not to pass".
