This issue MUST remain with the individual schools! This is federal overreach. I noticed that the sponsors of this bill are all Republicans- aren't Republicans supposed to support smaller Federal government? This seems to be going against that. The Federal and State governments need to STOP legislating things that should not be political. Stay in your lane, passing budgets that fund things that your citizens need- like properly paved roads, etc. STOP interfering in things that don't concern you. The schools should sort this out themselves, with the what, 2 trans athletes in the state? Spend your time doing things that will actually HELP the people you represent, instead of this nonsense. I am a mother of 4, 3 of which are girls. I would not care if a trans girl competed with or against my child. Sports are supposed to build teamwork and be fun. Stop making it into a situation where a child can be left out and ostracized. For shame.
