Trans Kids have a right to play sports, be public and private spaces. They have been in the school system and playing sports for decades prior to the Republican Party making them out to be evil people. This is about hate and nothing more. A distraction from the real problems in our society. Stop these stupid bills and get to fixing the housing, wage and health care system.

Also, anybody can you use any pronoun or name they wish. This is USA and that is called FREEDOM!!

The science shows that hormone therapy changes a trans person body shape and strength similar to cis people. This is just silly garbage again to distract from the real issues.
