Subject: Support for LD 233 – An Act to Prohibit Biological Males from Participating in School Athletic Programs and Activities Designated for Females When State Funding Is Provided to the School

Good morning, Senator Carney, Representative Kuhn and the Judiciary Committee

I am writing this testimony as a concerned citizen, parent and veteran to express my utmost support for LD 233 – An Act to Prohibit Biological Males from Participating in School Athletic Programs and Activities Designated for Females When State Funding Is Provided to the School.

As a father of three daughters, it's my duty to ensure they know how to live a healthy, safe and courageous life by instilling values such as honor, critical thinking, and self-respect. This balance is attacked and erased when their privacy and safety is invaded by males who "identify" or "feel" they have a right to their spaces and sports. Title IX was intended for girls to compete against other girls to earn championships, scholarships and lifelong bragging rights. Now, that world has been invaded and slowly being conquered by biological males posing as "transgender girls."

Biology dictates with facts and proof, not emotions, that male and female anatomies are completely different with different functions, muscular frames, and other scientific supporting data. Biology needs to be upheld and not "how I feel" or "how I identify."

I urge this committee to protect biological girls and their right to safety and competitiveness by passing LD 233 – An Act to Prohibit Biological Males from Participating in School Athletic Programs and Activities Designated for Females When State Funding Is Provided to the School with a vote of OUGHT TO PASS.

Respectfully,

Craig Caffrey
Bowdoinham
