

Emily Moulton
Houlton
LD 233

I'm here today against all proposals LD 233, 868, 1002,,1134,and 1704. To attack human rights against an already small and marginalized group that is looking for inclusion is against all rights of humans. I have been attacked for my support for trans community in my area The County by Parents Right Group and Main X. Their efforts to harm and harass children in our communities in this State by using kids as weapons against our children is embarrassing. Rep Laurel Libby has friend requested me on Facebook bc of what I stand for. Why to intimidate? Or admonish me? No clue, but she has done her best to try and hurt constituents and the trans community with her stunts and speeches that's on her guilty conscience. These bills are harmful and should not be allowed. Not only do they represent bad policies, but are bringing back the same false tropes and campaigns that were used against marginalized groups like inter racial marriages, blacks, and gays. It is disgraceful and disgusting to hear the words to describe children in bathrooms from adults and children who have no clue what it's like to walk in these kids shoes. No one has asked any trans person what they want, need, or care about. No one has actually heard or listened to them when they do speak out. They want to live their lives, and go to the bathroom , to change without people being in their business. Everyone poops. Leave them alone. Boston already pulled an embarrassing stunt at the hotel. We do not need pedophilia gender checks, or going into stalls. And anyone becoming a peeping Tom should check themselves. The arguments for these bills are invalid solely due to the fact they don't exist. They are based and pure lies and fantasies from perversions. To the lady from Presque Isle who is being weaponized, the lie in your story is " man" . Where was your outrage before this political stunt? Your tour being used in a political game that is dangerous and a shame , the tunnel vision for not seeing it as weaponized ignorance is sad. Hurting people for money? Take money out of sports and fun would be back. Women fought to get to do boys sports, Boy Scouts we Still don't get enough play time, money or attention. Fights not to wear skimpy outfits. It's embarrassing we are here. One group loses rights we all suffer. Vote no to Ld 233, 868, 1002, 1134, and 1704.
