I do not believe that male gender should be in any female gender Sports EVER. Physiologically it is not fair, not to mention the emotional aspect of when females work so hard to get where they are, to have a male come in and unfairly take that from the female. Males and females are built differently with different strengths and weaknesses. Male genders should never be aloud to share a female gender lockerroom nor bathroom. It feels unsafe to have males sharing these spaces with females. Please protect females. No more males to share female sports, bathrooms or any facilities!!
