

Mary Royal
Winterport
LD 233

Dear Members of the Judiciary Committee,

I am writing to oppose LD 233. It is very simple. Such decisions should be made by the Maine Principals Association. This professional organization uses fact and not fantasy to make their decisions. They know their students best and know how best to be supportive of their students. All students. Even those who express their discomfort with the idea of competing with trans students. There are many ways educators can provide the guidance needed in their schools. They should be the only ones making these decision. Every instance will require a unique consideration. There is absolutely no ethical or moral basis for legislators to be involved. Discrimination of any kind is not acceptable in a just society. Please vote Ought Not To Pass on LD 233. Mary Anne Royal, Winterport, Maine PS-you do not need to hear from me on the other bills in this session as you by now will have ascertained that I vehemently oppose them all.
