

Aaron Scalia
Monmouth
LD 1669

Esteemed members of the Veterans and Legal Affairs committee,

I would like to add my testimony to the public comments for proposed legislation LD 1669, SP 0664.

Please take into consideration the makeup of the Cannabis Advisory Board, that the representatives from the Adult-Use side only have AU licenses, NOT both MMJ and AU licenses as they are conflicted at best and biased at worst and would not represent the views from the AU only licensees. The medical and AU/MMJ licensees are benefitting from the status quo.

I would be happy to lend any guidance or assistance to any testimony or work session related to any proposed cannabis legislation.

We would be happy to make our team specialists available to assist in any way as well.

Thank you for your consideration.

Respectfully submitted,

Aaron Scalia
