

Daniel Malcolm
Brownfield
LD 1831

My name is Dan and I am from Brownfield. I strongly encourage you to vote in favor of

Bill LD1831. This will offer a pathway for small medical cultivators to transfer t AU and adequately compete if they so choose. As of now, the costly burdens of entry, including excise tax, makes small cultivators financially unable to compete in the AU market. This bill will greatly aid in their ability to do so. Just because farmers do not have deep pockets shouldnt disallow them from selling their harvest.
