

Thomas Martin
Sanford Maine
LD 1847

My name is Tom Martin, and I'm a patient in Maine's medical cannabis program. LD 1847 would destroy the program I rely on by forcing most small caregivers out of business. The bill adds burdens like THC caps, mandatory testing, and new taxes—regulations that make it nearly impossible for small growers to survive. These rules punish small-batch producers, reduce strain variety, increase prices, and limit access for patients like me.

Maine's program was built to prioritize patients and caregivers—not corporate profits. Please vote no on LD 1847.

Thank you.
