Surry 04684
LD 1493

I am a screenwriter and producer of such television series as Unorthodox (on Netflix). As a Surry voter, I strongly object to eliminating tax and wage incentives for visual and media production companies in the state of Maine. The series I write and produce create many jobs. Not just specialized jobs for production crew but also in a wide range of adjacent fields such as gastronomy, hospitality, construction and transportation. In addition, the wide reach of film and television work means that our work serves to promote Maine across the country and around the world, thus bringing additional money into the state. I would like to shoot more work in Maine and it is my belief that if Maine would create MORE incentives to shoot in the state, this would greatly benefit the local economy. Please vote NO on LC 1493.
