South Berwick
LD 1881

I support LD 1881 “An Act to Ensure the Rights of Parents of Minor Children in Education.”

This bill among other things, provides that a parent is entitled to access all information regarding the school activities of the parent's minor child; review all information regarding mental, emotional and physical health care services available at the school the parent's minor child attends as well as teaching and instructional materials for the parent's minor child; receive a well-being questionnaire or health screening form before that questionnaire or form is administered to the minor child; access health care and educational records of the parent's minor child; and refuse the parent's minor child's participation in a noneducational or core assignment, activity or service or assignment of material and request an alternative assignment, activity or service or material.

Transparency. What would a school district have to hide from the parents?

I support LD 1881 and it “ought to pass.”
