I am writing in support of LD1567. A quick search will reveal that the FDA requires labeling of irradiated foods.

<https://www.fda.gov/food/buy-store-serve-safe-food/food-irradiation-what-you-need-know>

Why should irradiated cannabis be treated any different?

Excerpt below,

"How Will I Know if My Food Has Been Irradiated?

The FDA requires that irradiated foods bear the international symbol for irradiation. Look for the Radura symbol along with the statement "Treated with radiation" or "Treated by irradiation" on the food label. Bulk foods, such as fruits and vegetables, are required to be individually labeled or to have a label next to the sale container. "

Other states may not require a label, but that does not mean Maine can't be the first.
