

Senator Curry, Representative Gere, and Members of the Housing and Economic Development Committee,

A+A Brochu, a logging and trucking company located in Clinton, Maine, wholeheartedly supports LD 1733. We need some relief from the high input costs over the last few years. Treating loggers and fishermen the same as farmers is not only good for our overall economy, but also just plain common sense and fair. Our costs have far outpaced the value of our finished product for the past decade, and this would help to provide some much-needed relief.

A+A Brochu LLC fully supports LD 1733.

Thank you,

Toby Pineo
Director of A+A Brochu LLC
