

Robert Thibodeau
Boddeford
LD 1847

I am Robert a registered caregiver in the state of Maine

I oppose 1847.

When we look at the facts of metric with adult use we show three times the canopy space available, but their profits not being three times as much at the end of the year.

All you hear throughout the country is how metric does not work and there are loopholes and other issues. Why would we want to implement a program that is already showing flaws in one side of Cannabis production?

It doesn't seem like a smart investment on either side .
