LD 1901

I like to share my support of LD1901. BlueHub Capital has impacted my family and I through their unfair business practices, preventing me from accessing the equity in my home. In addition, I have missed opportunities to invest in my children's college education and other opportunities because I'm unable to refinance my home with a SAM is above 50%. I have been trapped with BlueHub Capital for years. If not for the SAM, my family and I could fully realize the American dream, but the SAM is a nightmare.
